

In the Claims.

Rewrite claims 2, 3, 4 5, 7, 8 and 10 as follows:

2. (Amended) Broadcast data receiver apparatus according to claim 1 wherein the transport streams of data are received from [any or any combination] at least one from the group consisting of remote broadcast location or locations and[/or] from data storage means connected to or incorporated in the receiver and[/or] other sources connected to or incorporated in the receiver.
3. (Amended) Broadcast receiver apparatus according to claim 1 wherein [the] said single transport stream of data which is generated by the multiplexing steps includes selected packets of data from [the] said plurality of transport streams of data received.
4. (Amended) Broadcast data receiver apparatus according to claim 3 wherein [the] said packets of data which are selected are selected automatically as they represent data which is required for [the] said broadcast data receiver apparatus to operate correctly and/or in response to user selections.
5. (Amended) Broadcast data receiver apparatus according to claim 1 wherein data from [the] said plurality of transport streams is selected and said selected data is multiplexed into a single stream, is stored or recorded and/or is discarded in accordance with operating parameters for [the] said broadcast data receiver apparatus at any instant.

sub  
B9  
7. (Amended) Broadcast data receiver apparatus according to claim 6 wherein [the] said single transport data stream which is generated is presented to a single input component or components in [the] said receiver for further processing and to allow the data to be used to perform a designated function.

ab  
8. (Amended) Broadcast data receiver apparatus according to claim 7 wherein the designated function is [any or any combination] selected from the group consisting of at least one of the generation of video displays, audio displays, recording of programmes, playback of recorded programmes, generation of electronic programme guides, linking with internet services, e-mail, interaction with a personal computer, video, and/or other apparatus.
